

# OJRSA Fiscal Year 2026 Comprehensive Budget Request

May 14, 2025

This budget request includes funding for operations, capital improvements, and other requirements necessary to comply with federal and state laws, regulations, and operating permits for the existing wastewater trunk sewer and treatment system, as well as the I-85 Corridor (“Sewer South”) retail system. The budgets and funds as described herein are as established by the *OJRSA Financial and Accounting Policy* and other applicable policies as adopted by the Oconee Joint Regional Sewer Authority (“OJRSA”) Board of Commissioners (“Board”).

This draft budget is to be presented to the OJRSA Finance & Administration Committee at their May 28, 2025 meeting for consideration.

As requested by the Board, changes to the rates and fees assessed by the OJRSA are included in this request and all revenues associated with the FY 2026 Budget include these proposed rates. If these rates and fees are modified by the Board as part of the budget consideration process, then the annual budget will also need to be modified to reflect these changes.

Unlike previous years, the OJRSA will not include specific budgeted costs for items and/or services which are to be competitively bid, thus not disclosing these projections to perspective bidders. This practice has been approved by Pope Flynn LLC, the attorneys that developed the current *OJRSA Procurement and Property Disposal Policy* and is meant to allow the OJRSA to get the best possible prices.

Fiscal Year 2026 for the OJRSA begins July 1, 2025 and ends June 30, 2026.

## **ANNUAL OPERATING BUDGETS (UNRESTRICTED FUND)**

The purpose of the two (2) Operations & Maintenance (O&M) budgets is to pay for operating expenses associated with the OJRSA’s wholesale and retail wastewater conveyance and treatment systems. In accordance with intergovernmental agreements between Oconee County and other entities, neither of these funds can subsidize the O&M of the other.

The OJRSA maintains two (2) unrestricted funds for O&M—one for the wholesale sewer system that serves the Member Cities and one that is for the retail system often referred to as the “I-85 Corridor Sewer System, also known as “Sewer South.”

### **Wholesale Operations & Maintenance Fund**

The proposed Wholesale O&M (“WO&M”) Budget is balanced and anticipated revenues equal expenses (\$6,759,426 revenues<sup>1</sup> vs. \$6,759,426 expenses<sup>2</sup>).

#### **Wholesale Operations & Maintenance Fund Revenues**

Anticipated total revenue for WO&M without carryforward (\$110,714) and net position transfer in (\$0) is \$6,648,712, which is an increase of \$315,831 (5.0%) from FY 2025.<sup>3</sup>

---

<sup>1</sup> Includes Carryforward from Previous Year (\$110,714). No net position (“fund balance”, “retained earnings”, or “savings”) funds, American Rescue Plan Act (“ARPA”) funds, or other monies are used to supplement the FY 2026 WO&M Fund budget.

<sup>2</sup> Includes transfers to other funds (\$469,338) but not depreciation (\$1,238,863). Including depreciation, WO&M expenses are \$7,998,289.

<sup>3</sup> FY 2025 WO&M budget included \$26,500 in carryforward funds and \$0 in net position transfer in funds, thus the total FY 2025 WO&M budget without these inclusions was \$6,332,882.

User Fees

Customer user fees are the primary source of all OJRSA WO&M revenue. Including a proposed 5% increase, user fees are conservatively projected to increase by \$411,144 (+7.2%) during FY 2026.<sup>4</sup>

A breakdown of the proposed user rates is included in Table 1 below. There is a 5% proposed increase to the volumetric rate user fees for FY 2026; however, it has been advised by the rate consultant performing the Regional Sewer Feasibility Planning Study that the OJRSA increase rates considerably in the coming years in order to fulfill operation and maintenance obligations, complete necessary improvements, and expansion projects over the next 10 years.<sup>5</sup>

It should be noted that the OJRSA does not receive *ad valorem*<sup>6</sup> funding from the cities or county, nor can the OJRSA legally impose such a tax to fund operations or capital improvements. The agency may occasionally receive grants or other in-kind capital contributions from local, state, or federal agencies or other parties. If such funding is received (or anticipated to be received), then it will be identified within this summary and the proposed budget.

Table 1: User fees and anticipated revenues

	Per Sewer Customer	Anticipated Annual Revenue
<b>Residential User Fees</b>		
Base Rate (per water meter)	\$10.00/month	\$962,157
Volumetric Rate	\$5.66/1,000 gallons	\$2,102,122
<b>Nonresidential User Fees</b>		
Base Rate (per water meter)	\$15.00/month	\$273,913
Volumetric Rate	\$7.74/1,000 gallons	\$2,789,556
<b>Other User Fees (Well Users, etc.)</b>		
Res Base Rate (per well)	\$10.00/month	\$120
Res Flat Rate	\$25.42/month	\$305
	<b>TOTAL</b>	<b>\$6,128,172</b>

Other Revenues Worth Noting

- Hauled Waste Services is anticipated to remain about the same as FY 2025.
- Net Position Transfer In – The OJRSA does not plan to use net position (also known as “fund balance”, “retained earnings”, or “savings”) during FY 2026.
- Carryforward Expenditures – \$110,714 in FY 2025 budgeted expenses will carry over into FY 2026. Included in this is \$80,000 for the Fountain Residential Partners LLC reimbursement for the force main replacement engineering administration and inspection and \$30,714 insurance payment for MV-26 wreck. These “revenues” are to be offset by expenses in the proposed WO&M Budget.

**Wholesale Operations & Maintenance Fund Expenses**

Anticipated expenses for the WO&M Budget are \$6,759,426, which is an increase of \$481,859 (+7.7%) from FY 2025.<sup>7</sup> When coupled with inflation<sup>8</sup>, workforce shortages (both internally and externally of the agency), and limited revenue, the OJRSA must be selective as to what tasks and projects to perform, meaning we are

<sup>4</sup> 5% increase on volumetric (per gallon) fees only as discussed at May 5, 2025 board meeting. “Conservatively projected” means that it is assumed that residential usage will decrease by 0.25% (equal to a reduction of 2.5 gal/account) and nonresidential usage will decrease by 0.50% (5 gal/account) during the budget year. This approach considers a reduction of usage for reasons such as active or passive conservation efforts by the users and/or water meters underreporting usage, among other causes.

<sup>5</sup> Willdan Financial Services presented this to the Commissioners on March 6, 2025. In sum, the OJRSA should consider 74% increases for FYs 2026 and 2027 due to complete the highest priority capital considerations using pay-as-you-go (“paygo”) funding. The issuance of debt would reduce the amount of increase needed. See the meeting minutes for more information.

<sup>6</sup> Taxes imposed on real or personal property, such as vehicles and homes.

<sup>7</sup> Includes transfers to other funds totaling \$469,338. If these are not included, the WO&M expenses are \$6,290,088. All fund transfers proposed in this year’s budget request are to be spent on capital projects and/or equipment replacement.

<sup>8</sup> Consumer Price Index rose [2.96% for the United States](#) and [2.97% for the Southeast](#) during calendar year 2024.

continuing to conduct business from a reactionary position. The FY 2026 Budget was prepared conservatively with a small contingency to account for price increases included in some estimates<sup>9</sup>; however, the agency will continue to prioritize work associated with the 2021 DHEC Consent Order instead of growth-related projects.

Administration (Total: \$3,306,560, not including depreciation or fund transfers out)<sup>10</sup>

Including transfers to other funds, the Administration department budget increased by \$987,580 (+35.4%) from FY 2025. Department line items of emphasis:

- There are several line items that have been combined to make coding easier on staff. The budgets for the ones that have absorbed others will show what may appear to be a considerable increase; however, these have been offset by the line items that have been removed—note that some of these may have been in other department budgets during FY 2025. Combined items include:
  - 501-02210 Temporary Employee moved to 501-01300 Payroll: Salaries
  - 501-02230 Unemployment Insurance and 501-02240 Workers' Compensation moved to 501-02250 Insurance-Property/General
  - 501-02270 Uniforms moved to 501-02260 Employee Uniforms & Wellness
  - 501-02880 Travel & POV Mileage moved to 501-02530 R&M: Vehicles, Trailers, & Equipment
  - 501-02290 Agency Memberships and 501-02310 Seminars/Workshops & Training moved to 501-02300 Licenses/Certifications/Memberships
  - 501-02340 Public Relations & Advertising and 501-02360 Mailing/Shipping moved to 501-02420 Administration Services
  - 501-/601-/701-02520 Fuel: Vehicles & Equipment moved to 501-02530 R&M Vehicles, Trailers, & Equipment
- Salaries and benefits costs:
  - The OJRSA continues to utilize a merit-only system of compensation increases instead of an across-the-board cost of living adjustments equally given to all staff. At the recommendation of Priority Performance Group (Bob DiAntonio in 2018-2019) and Find Great People (Carrie Cavanaugh, 2021-current), the Board decided to make market adjustments for all positions, which accounts for inflation and what others are paying similar positions, every three-to-four years through updated compensation studies. The last such assessment was completed in May 2023 and implemented at the beginning of FY 2024. **Due to the turnover of seven key water reclamation facility ("WRF") operators, maintenance technicians, and conveyance system technicians for more compensation in the public and private sector since July 1, 2024,** the OJRSA is recommending an update to this study be performed during the spring of FY 2026 and implemented at the beginning of FY 2027, which is in line with the market adjustment recommendation of three years as stated by the consultants. *The OJRSA is addressing this by utilizing more contractor services for treatment plant operation and pump station maintenance.*
  - Payroll: Salaries increased by \$177,747 (+15.4%) to include the hiring of three additional staff members—Engineer/Project Manager, Conveyance System Technician, and Maintenance Technician. These additional staff will also cause increases to other employee-related costs, such as FICA, Medicare, retirement, workers' compensation, health insurance, and employee wellness.
- Safety increased by \$17,305 (+52.4%) due to the need to perform the arc flash assessment as defined in NFPA 70E Standard for Electrical Safety in the Workplace. These studies, which must be conducted every five years (max), will be performed at the Water Reclamation Facility (WRF) and all pump stations as required by OSHA per 29 CFR 1910.303, 1910.335, and others.

<sup>9</sup> OJRSA practice is to receive as many cost estimates from vendors as possible when developing the budget, but some of these may have been received many months earlier. The contingency included accounts for these increases and is typically in the range of 2-3%.

<sup>10</sup> Fund transfers out include \$225,000 be transferred to the Projects & Contingency Fund. Depreciation expense is \$1,222,487. If these are to be included, the department expense would be \$3,789,878.

- Office Supplies increased \$218,966 (+274.3%) to purchase and implement an integrated work order, asset management, financial, and accounting software solution—collectively referred to as computerized maintenance management system or “CMMS”—as recommended by the CMOM audit and OJRSA staff.
- Administrative Services are anticipated to increase by approximately \$42,591 (+17.9%), which includes assistance with legal fees to assist with the sewer feasibility implementation project, increased efforts to perform the annual audit for the combined wholesale and retail sewer systems, and integrating and updating the new CMMS (in lieu of onboarding additional staff to perform this).
- R&M: Vehicles, Trailers, & Equipment is expected to increase to perform maintenance on generators and heavy equipment. The substantial change in this line item is the inclusion of generator maintenance at the WRF and pump stations. Please note this is one of the line items that was combined with several others.
- Rolling Stock & Equipment includes the purchase of two compact 4-wheel drive trucks, one for the Engineer/Project Manager and the other to replace MV-26, which was totaled in a February 2025 wreck. (OJRSA was not at fault.)
- Because there are many unpredicted mechanical and electrical issues experienced with aging wastewater conveyance and treatment assets, O&M Contingency increased by \$100,000 to cover these unexpected expenses. This will allow the Operations Director and his leadership to address unexpected repairs and replacement of equipment without having to “sacrifice” other budgeted repairs/replacement projects. Contingency funds not used during the budget year will be retained for future projects and contingency or other purchases as approved by the Board.

#### Fund Transfer to Projects & Contingency Fund

There is a budgeted transfer of \$469,338 to the Projects & Contingency Fund to pay for the following projects, all of which are associated with the DHEC Consent Order:

1. Engineering MH1A-29 CCTV-MH Review
2. Manhole Flood Resilience Plan: Engineering (grant funding assistance, design, permitting, etc.)
3. Speeds Creek Force Main Replacement design and easements

#### Conveyance System (Total: \$964,406)

The Conveyance System department budget decreased by \$549,118 (-36.3%) from FY 2025. Department line items of emphasis:

- Supplies/Tools is projected to increase by \$42,342 (+282.3%) with the largest additions being to purchase new NASSCO CCTV software, replacement parts for Hach FL902 flow meters, and additional equipment to monitor inflow and infiltration (“I/I”).
- Professional & Contract Services has substantially decreased by \$333,554 (-70.1%) from FY 2025. OJRSA leadership staff determined that there was not a need to fund additional CCTV and cleaning during FY 2026 because funds were not yet available to perform the design and construction to rehabilitate the conveyance system for the portions of the sewer that were inspected during FY 2025 (entire OJRSA basin upstream of Martin Creek PS and the Southern Westminster Trunk Sewer).
- The price of sodium hypochlorite has decreased, leading to a \$9,773 (-27.3%) reduction in anticipated costs for the coming year.
- Equipment Rentals will increase by \$3,000 (+25%) due to the anticipated rental cost of an excavator to perform streambank stabilization projects and other repairs.
- R&M: Gravity & Force Mains increases by \$15,000 (+11.5%) to purchase additional rings, covers, risers, and other materials to rehabilitate manholes, air release valves, and other components of the conveyance system.
- Rolling Stock & Equipment requests include:
  - Inline hydrogen sulfide (“H<sub>2</sub>S”) meters that can report conditions in near-real time to the

OJRSA

- New utility trailer for the utility terrain vehicle (“UTV”)
- Brush cutter for skid steer
- R&M: Flow Meter Stations is projected to decrease by \$16,500 (-100%) as there are no anticipated projects associated with these facilities.
- R&M: Pump Stations is expected to decrease by approximately \$16,040 (-6.6%). Besides general maintenance costs, it includes the following special purchases and projects:
  - Rotating Assemblies for Pumps #4 and #5 at Coneross Creek PS
  - Pump motor for Choestoea PS
  - Replace motor base with new restraint system at Martin Creek PS

Water Reclamation Facility (Total: \$1,702,295)

The Water Reclamation Facility department budget increased by \$130,755 (+8.3%) from FY 2025.

Department line items of emphasis:

- Professional & Contract Services has decreased by \$2,352 (-13%) because the NPDES Permit renewal process should be complete by that time. The budget does include construction administration and permitting work to be performed on the chlorine replacement project (conversion to peracetic acid, or “PAA”). The next NPDES Permit renewal will likely begin during FY 2028 or 2029.
- Line items for both chlorine/PAA and sodium bisulfite (used for chlorine neutralization) will collectively increase due to higher costs for chemicals and usage; however, sometime during FY 2026, the OJRSA anticipates converting to PAA, at which time it is possible to actually reduce costs as chlorine neutralization will no longer be necessary.
- Biosolids Disposal is expected to decrease by \$133,900 (-41.9%) because the agency is not planning any largescale tank cleaning projects during FY 2026.
- Buildings & Grounds will decrease by \$65,500 (-78.5%) because two large projects funded during FY 2025 will be completed by that time: paving around solids storage pad/solids building and painting/replacing handrails.
- Rolling Stock & Equipment requests include:
  - Replacement of utility cart
  - New zero-turn lawn mower
- R&M: Water Reclamation Facility is projected to increase by \$300,469 (+48.5%) as the agency has several projects planned that address either Capital Improvement Project (“CIP”) items or facility needs to continue operations within the confines of all applicable permits. These include:
  - CIP Priority 1A Item: Replace aeration system gates
  - CIP Priority 1A Item: Aeration motor repair/replacement
  - CIP Priority 1A Item: Replace Primary Clarifier sludge pump (swing pump)
  - CIP Priority 1A Item: Wired connection for portable generator (including engineering)
  - CIP Priority 2 Item: Replace Scum Pump
  - Installation of a flow pulse and channel sensor at Headworks
  - Install flow meter on Secondary Clarifier return activated sludge (“RAS”) line
  - Replace aerobic zone mixer motor at Biological Reactor Basin
  - Install check valves at Secondary Clarifier RAS line
  - Install Secondary Clarifier return activated sludge motor
  - Replace one utility water pump

Pretreatment (Total: \$158,859)

The Pretreatment department budget increased slightly by \$12,856 (+8.8%) from FY 2025. It is worth noting that all expenses incurred by the OJRSA that are associated with the industrial pretreatment program are reimbursable by those facilities operating under the requirements of an OJRSA-issued Industrial Wastewater Discharge Permit.

Laboratory (Total: \$58,830)

The Laboratory department budget is expected to decrease by \$25,547 (-30.3%) from FY 2025.

Department line items of emphasis:

- Professional & Contract Services are reduced by \$26,147 (-35.6%) because of savings associated with contract laboratory sampling.

Contract Operations (Total: \$19,432)

These expenses are for work performed by OJRSA staff associated with operating and maintaining Oconee County's Golden Corner Commerce Park Pump Station and force mains. All costs are reimbursable by the County, including routine labor expenses (non-emergency/afterhours) at a flat rate of \$26,000 per year, which is new for FY 2026 and is included as a revenue item only. In the past the OJRSA billed the county based on actual time spent performing work during the year and was included as an OJRSA expense; for FY 2025, this amount was estimated to be \$12,399.

Capital Improvement Projects (Total: \$80,000)

The Capital Improvement Projects (O&M funded) budget will be used to pay for the remainder of the inspection and construction administration services for the Seneca Creek Pump Station force main installation project. These expenses are to be paid for using budgeted carryover funds from FY 2025.

NOTE: This to be reimbursed by Fountain Residential Partners, LLC (or as assigned), thus is also counted as a revenue to offset this expense.

**Retail Operations & Maintenance Fund**

There is currently not a separate capital fund for the retail sewer system and all capital expenditures are paid from this fund.

The Retail Operations & Maintenance ("RO&M") account is to fund the construction and operation of the I-85 Corridor/Fair Play retail sewer system ("Sewer South"). Since Oconee County government is subsidizing the operation of this system, all revenues collected from this system must remain in this fund and cannot intermingle with other OJRSA funds except as necessary for operating shared assets, such as the Coneross Creek Water Reclamation Facility. If revenues do not equal or exceed expenses, then Oconee County is responsible for "making the budget whole" per various intergovernmental agreements because the Member Cities and their customers cannot subsidize this enterprise.

**Retail Operations & Maintenance Fund Revenues**

Anticipated revenues for RO&M, without net position transfer in (\$0) and carryforward (\$0), is \$105,802. The majority of this revenue is to be paid through reimbursement from Oconee County as it is not anticipated that the user fees collected will exceed the expenses associated with this system.<sup>11</sup>

**Retail Operations & Maintenance Fund Expenses**

FY 2026 expenses for the fund are estimated to be \$105,802, which is a decrease of \$3,607,229 (-97.2%) from the previous year. Since the construction phase of the project previously referred to as "Sewer South Phase II" is now complete, most of the costs are to be what the OJRSA believes to be the first year operational expenses for the retail sewer system. The only expenses that are anticipated beyond normal O&M are for the portion of the financial audit that is necessary with this system and engineering associated with streambank stabilization and the design of a potable waterline that will serve the Welcome Center Pump Station.<sup>12</sup>

**RESTRICTED FUNDS**

Per the *OJRSA Financial and Accounting Policy* and legal counsel's advice, funds in restricted accounts must be used for specific purposes for which they were obtained.

<sup>11</sup> These revenues received from Oconee County are in addition to those collected in the WO&M Fund.

<sup>12</sup> Engineering costs have already been approved by Oconee County.

## **Projects & Contingency Fund**

The Projects & Contingency Fund (“P&CF”) is primarily used for the purpose of performing capital projects and restoring or replacing depreciated or obsolete units of the system.

### **Projects & Contingency Fund Revenue**

Anticipated revenues for P&CF, without net position transfer in (\$0) and carryforward (\$330,000), is \$8,226,158. The sources of revenue include SCIIP grants (\$7,773,098) and transfers from the WO&M Fund (\$453,060). The carryforward expenditures are for engineering associated with the two SCIIP projects (Consent Order Conveyance System Rehab and Dewatering Equipment Replacement).

### **Projects & Contingency Fund Expenses**

Budgeted expenses totaling \$8,556,158 include:

#### Planning and Studies

- None

#### Gravity Sewer Projects

- CIP Priority 1A Item: Engineering – Review of MH1A-MH29 CCTV
- Consent Order Item: Engineering – Manhole resilience plan to make OJRSA manholes within the 100 year floodplain less vulnerable to the impacts of flooding
- Consent Order Item: Construction and Engineering – Continue SCIIP-funded Consent Order Conveyance System Rehab project (estimated completion is August or September 2025)

#### Pump Station Projects

- None

#### Force Main Projects

- CIP Priority 1A Item: Engineering – Design and easement work associated with replacing the Speeds Creek Pump Station force main

#### WRF Projects

- Construction and Engineering – Continue SCIIP-funded Dewatering Equipment Replacement project (estimated completion is May 2026)

## **Wholesale Impact Fund**

The Wholesale Impact Fund (“WIF”) Budget as presented includes revenue of \$976,000 from the collection of impact fees, industrial unused capacity fees, and interest earned on investments.

There are no WIF projects planned for FY 2026.

## **Retail Impact Fund**

The Retail Impact Fund (“RIF”) Budget as presented includes revenue of \$5,000 from the collection of impact fees, industrial unused capacity fees, and interest earned on investments.

There are no RIF projects planned for FY 2026.

## **Capital Projects**

Table 2 on the following pages include a list of projects as identified by OJRSA staff and Consent Order consultants as well as in the [Oconee County & Western Anderson County Sewer Master Plan \(July 2024\)](#)<sup>13</sup>, which serves as a guide for potential needs over the next 20 years at the Coneross Creek Water Reclamation Facility and the wholesale and retail conveyance systems. It is important to note that the list is not comprehensive as the extent

<sup>13</sup> Presented to the OJRSA board on July 1, 2024 by Weston & Sampson/Bolton & Menk.

of some projects is not yet known.

The projects identified in the table are listed by priority based on Consent Order needs, criticality, equipment lifecycle, and growth. When initially developed, there were three priorities; however, when performing the rate/financial cost of service study, Willdan Financial Services recommended that it would be best to break this down further into either four or five priority levels. OJRSA staff determined it would be best to use four but to break the highest priority items—Priority 1—into two subcategories, Priority 1A and Priority 1B, with the primary difference being that growth would also be a considerable factor.<sup>14</sup>

*[SEE FOLLOWING PAGE FOR TABLES]*

---

<sup>14</sup> One other exception is the Martin Creek Pump Station hydrogen sulfide control system, which is listed as a Priority 1B project. The OJRSA has sustained numerous breaks on the force main associated with this facility as well as considerable odor complaints from those in the area of the force main discharge near the intersection of Wells Highway and Friendship Road. Although this project is important, it was deemed slightly less so than those in the Priority 1A list because the OJRSA has installed a temporary sodium hypochlorite chemical feed at the station to address the odor issue.

Table 2: Oconee Joint Regional Sewer Authority 20-Year Capital Improvement Plan & Rehabilitation Plan as included in Willdan Financial Services rate/cost of service study as presented to the OJRSA Board of Commissioners on March 6, 2025..Priorities: 1A-Critical O&M/Consent Order with No Growth (with a few exceptions to address include largescale equipment replacement, such as at the WRF) 1B-Critical O&M/Consent Order with Growth 2-Approaching End of Life with No Growth 3- Approaching End of Life with Growth 4- Growth Only

Priority	Project	Included in FY 2026 Budget?	Fiscal Year(s) to Perform	Location	Driver(s)	Likely Funding Source(s)	Consent Order Project?	Significant O&M Cost?
1A	Systemwide Improvements (Rehab 100% of System Plus Misc. Gravity Sewer Improvements)	NO	ALL FYs	Conveyance	O&M	Primary Debt	YES	No
	CCTV/Cleaning	NO	ALL FYs	Conveyance	O&M	Annual (O&M)	YES	YES
	Engineering/Flow Metering	YES	ALL FYs	Conveyance	O&M	Annual (O&M)	YES	YES
	GIS/Mapping	YES	ALL FYs	Conveyance	O&M	Annual (O&M)	YES	YES
	Coneross Influent PS Replace Soft Starts	NO	FY2026	WRF	O&M	Annual (O&M)	No	No
	Primary Clarifiers: Prim Clarifier Sludge #3 Pump Replacement	YES	FY2026	WRF	O&M	Annual (O&M)	No	No
	Choestoea Creek PS Replacement	NO	FY2026-FY2027	Conveyance	O&M	Cash &/or Debt	YES	No
	Pelham Creek PS Replacement CAN BE ELIMINATED BY DAVIS CREEK SEWER PROJECT	NO	FY2026-FY2027	Conveyance	Growth/O&M	Cash &/or Debt	No	No
	Speeds Creek Force Main Replacement	DESIGN - YES	FY2026-FY2027	Conveyance	Growth/O&M	Cash &/or Debt	YES	No
	Aeration: Gate Replacements	YES	FY2026-FY2027	WRF	O&M	Cash &/or Debt	No	No
	Aeration: Motor Repair / Replacement	YES	FY2026-FY2027	WRF	O&M	Cash &/or Debt	No	No
	Biological Reactor Basin: Valve / Gate Replacements	NO	FY2026-FY2027	WRF	O&M	Cash &/or Debt	No	No
	Digesters / Sludge Holding Tanks: Mixer Replacement for #1	NO	FY2026-FY2027	WRF	O&M	Cash &/or Debt	No	No
	Digesters / Sludge Holding Tanks: Replace Blowers	NO	FY2026-FY2027	WRF	O&M	Cash &/or Debt	No	No
	Electrical: Backup Power - Portable Generator Connection (inc. Engineering)	YES	FY2026-FY2027	WRF	Growth/O&M	Cash &/or Debt	No	No
	Flow Equalization & Storage: Day Tank Mixing and Control Equipment	NO	FY2026-FY2027	WRF	O&M	Cash &/or Debt	No	No
	Secondary Clarifiers: Rebuild / Replace Mechanical Equipment	NO	FY2026-FY2027	WRF	O&M	Cash &/or Debt	No	No
	Coneross Influent PS Flood Protection	NO	FY2027-FY2028	WRF	O&M	Cash &/or Debt	No	No
	Digesters / Sludge Holding Tanks: Repair Decanter System	NO	FY2029-FY2030	WRF	O&M	Cash &/or Debt	No	No
	ISS PS Replacement	NO	FY2033-FY2034	Conveyance	O&M	Cash &/or Debt	No	No
1B	Martin Creek H2S Control	NO	FY2026-FY2027	Conveyance	O&M	Cash &/or Debt	No	YES
	Millbrook PS Upgrade CAN BE ELIMINATED BY DAVIS CREEK SEWER PROJECT	NO	FY2026-FY2027	Conveyance	Growth/O&M	Cash &/or Debt	No	YES
	Perkins Creek PS Replacement	NO	FY2026-FY2027	Conveyance	Growth/O&M	Primary Debt	YES	No
	Seneca Creek PS Upgrade POSSIBLE ELIMINATION BY DAVIS CREEK SEWER PROJECT	NO	FY2026-FY2027	Conveyance	Growth/O&M	Primary Debt	No	YES
	Coneross Creek WRF Upgrade Phase 1 (Upgrade to 10.4 mgd)	NO	FY2027-FY2032	WRF	Growth	Primary Debt	No	YES
	Martin Creek Pump Station & Force Main	NO	FY2034-FY2035	Conveyance	Growth/O&M	Primary Debt	YES	No
2	Septage Receiving Station: Rehabilitation	NO	FY2026	WRF	O&M	Cash &/or Debt	No	No
	Digesters / Sludge Holding Tanks: Blower Room Repairs	NO	FY2026-FY2027	WRF	O&M	Annual (O&M)	No	No
	Primary Clarifiers: Scum Pump #2 Replacement	YES	FY2026-FY2027	WRF	O&M	Cash &/or Debt	No	No
	Secondary Clarifiers: Replace RAS Valves and Check Valves	NO	FY2026-FY2027	WRF	O&M	Cash &/or Debt	No	No
