

MEMORANDUM

TO: OJRSA Project #2026-10 SOQ Submitters
FROM: Chris Eleazer, Executive Director 
CC: N/A
DATE: May 11, 2026
SUBJECT: Rejection of Submittals

Upon review of the statement of qualifications submitted for OJRSA Project #2026-10 Procurement and Implementation of a Financial and Accounting Software System RFP, Oconee Joint Regional Sewer Authority has elected to reject all SOQs because the submittals received failed to meet mandatory requirements as stated in the solicitation.

Due to the lack of responses, the requirements for the software system will be reviewed and the Request for Proposals will be updated and readvertised soon. Those companies that expressed interest by contacting the OJRSA directly with questions to the initial RFP or attended the optional pre-submittal meeting will receive the updated solicitation by email to the address(es) on file.

The list of responders to the request for proposals is included with this memo and will be posted at www.ojrsa.org/opportunities in accordance with the South Carolina Freedom of Information Act.
